WINTER WEATHER EMERGENCY
During the winter months, there is a high risk of major delays in service due to slow/stopped traffic on Route I-95 and in Center City. As implemented several times last year, this “Winter Weather Emergency” shuttle plan will apply:
If we declare a “Winter Weather Emergency,” we will state the timeframe via email and social media. We will give as much advance notice as possible, but it may be implemented and effective immediately, depending on the timing of a snow/ice event.

• NAVY YARD-NRG STATION LOOP MORNING: The first run will depart from NRG Station at 6:03 am (no 5:38 am shuttle).
• NAVY YARD-NRG STATION LOOP AFTERNOON: We do not anticipate any deviation from schedule unless the storm is so severe as to force us to end service early. If we must end service early, we will notify tenants via email and social media.
• CENTER CITY EXPRESS: Shuttle runs as often as possible between 6:00 am to 6:30 pm. There will be NO service to Center City. The Express will run its internal Navy Yard route, making all stops within the campus, and then proceed to NRG Station on a continuous loop. There will be no set stop times as the shuttle will make its runs as safely and quickly as possible, but riders can expect a shuttle approximately every 10-15 minutes.
